

Human Error, Safety Risk Management, and Flying in Alaska

FAA Safety Team Program Manager and CFI, John Steuernagle (fresh from Alaska) will guide the audience to an understanding of mishap experiences in and outside the aviation field. This program addresses human traits and environmental conditions that lead to errors.

Directions: Enter building & proceed to venue

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!
